 the power to learn.**

INNOVATION

ACADEMY

Reasons to be a part of

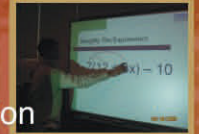

INNOVATION ACADEMY

1. Be creative.
2. Solve problems and design things that matter.
3. Increase earning potential.
4. Change the world.

In the Classroom:

What to expect

- Project-based learning
- College and career exploration
- Real-world experiences
- Project Lead the Way Exploration
- Rigorous Course work
- Inspiration to pursue STEM Careers
- Robotics Club - learn to design, program and control fully-functional models to do automated tasks.

Career Choices:

With high-earning potential

Science

- Botanist
- Chemist
- Physicist

Technology

- Technical Writer
- Software Tester
- Database Administrator

Engineering

- Aerospace
- Chemical
- Automotive

Math

- Architect
- Astronaut
- Actuary

Our vision:

To inspire students to pursue careers in engineering, science, technology and math through exposure to real world opportunities, challenges and experiences.

Students will be able to participate in a science and engineering-based robotics competition, college and career exploration, and project-based learning initiatives

Our goal

To help students realize their potential learning power.
